

Students

Immunizations

To protect the health of all students and staff and to curtail the spread of infectious diseases, the Board of Education shall cooperate with state and local health agencies to encourage and facilitate immunization of all District students against preventable diseases.

Each student enrolling for the first time in a District elementary or secondary school, preschool, or child care and development program, or, after July 1, 2016, enrolling in or advancing to grade 7 shall present an immunization record from any authorized private or public health care provider certifying that he/she has received all required immunizations in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

Each transfer student shall present his/her immunization record if possible, upon registration at a District school. The Superintendent or designee may arrange for an authorized health care provider to administer immunizations at school to any student whose parent/guardian has consented in writing. At the beginning of the school year, parents/guardians shall be notified of their right to provide consent for the administration of an immunization to their child at school. (Education Code 49403)
