General Fund Revenues and Expenses, 1998-99 to 2007-08

## The Education Budget of 2007-08 <br> is Modest in New Growth

 a state budget when they face their own budget deficit.

One of the major difficulties facing the budget development process is the

 document with considerable restraint in adopting programs or program increases that are on going.

The graphic display of district revenue and expense shows how the district's
revenues have varied widely between fiscal years as the state has gone
through its own economic roller-coaster.

by the local agency
A significant portion of California school district income is restricted income and, as such, can only be expended for selected purposes as determined by the

 the local agency for general educational priorities. On average, in 2007-08, California school districts will receive about two-thirds of their income as unrestricted.
The biggest restricted programs in California are Special Education, K-3 Class Size Reduction, and Home-to-School Transportation. Local agencies are

District Reserves and Net Ending Balances, 1998-99 to 2007-08

## A school district's Net Ending Balance is a district's <br> reserve account to fund

unforeseen events or pay
for multi-year needs
 into the subsequent year and identified as the District's "Net Ending Balance." In most cases, this is the only reserve account that a school district has for general operational purposes. The Net Ending Balance of one year becomes the Net Beginning Balance of the subsequent year.
Included within the projected Net Ending Balance is a "Reserve for Economic Uncertainties," which is a minimum balance that the state of California requires to be retained to cover unforeseen shortfalls in revenues or higher-than-expected expenditures. The state's minimum "Reserve for Economic Uncertainties" for ORANGE UNIFIED SCHOOL DISTRICT is $3 \%$ of the total General Fund expenditures. Many districts have reserves that are higher than the minimum state requirement, due to the significant fluctuations in public education revenues and/or due to local circumstances and risk factors.

 revenues can only be expended for the purposes determined by the grantor,
 originating income. Thus, a Net Ending Balance is composed of two types of accounts--those that are "restricted" that can be used for selected purposes only and those that are "unrestricted" that can be expended by decisions of the local agency.
Lottery Income and its History
Lottery income is important,
but it is only $1 \%$ of
the District's total income

Current and budgeted years are estimated and projected
Cliforia State Lottery is projected to yield $\$ 3,126,764$, or approximately $1 \%$, of the District's income in 2007-08. While the income is welcome, it will yield only a small portion of the total income needed to support the District's educational program. The income in the budget year, as an example, would be sufficient to buy three textbooks per student, to buy four computers per classroom, or pay for the energy costs for one year.
 but instead has ranged from a low of $\$ 77$ per ADA in 1991-92 to a high of $\$ 176$ per ADA in 1988-89. Since the income is not consistent, the expenditures have also varied widely.
Since 1997-98, school districts have been required to use $50 \%$ of the growth in Lottery allocations for the purchase of instructional materials. In 2007-08, it is projected that California school districts will receive $\$ 118$ per ADA in unrestricted funds and $\$ 19$ per ADA restricted for the instructional materials purchase.
The District is proud of its management of the Lottery expenditures for student needs and enhancements.

ENROLLMENT
Projecting enrollment is important because the District's enrollment

facilities. Change in enrollment for the past six years is as follows:

# Enrollment Versus Average Daily Attendance (ADA) 

ADA is the measure of attendance activity that represents the actual count of students present. ADA reporting to the State is measured on three dates:

The ratio between ADA and enrollment in California Public Schools is approximately $95 \%$. For the past six years the ratio between ADA and enrollment in Orange Unified is as follows:

## STAFFING COMPOSITION <br> Lottery Revenues (uses prior year's annual ADA)

 Full-time Equivalents (FTEs)Staffing units are reflected as full-time equivalents (FTEs).
Oftentimes, FTEs are shown as fractions. For example, teacher FTEs
are related to teach periods $(0.2 \mathrm{FTE}=1$ period, $1.0 \mathrm{FTE}=5$ periods,
etc.). Non-teaching FTEs are related to hours worked $(0.375 \mathrm{FTE}=$
3 hours, $1.0 \mathrm{FTE}=8$ hours, etc.).

- Same as intermediate schools, except that minimum staffing is 80 hours
To determine custodial staffing, the District uses staffing formulas that are based on projected enrollments by school site, school building square footage, number of teachers assigned to a site, and number of rooms.

## Special Project Personnel

Certificated and classified personnel are allocated to special projects on the basis of Federal and State categorical program plans. Personnel assigned to a categorical program are funded by program and not the District's unrestricted General Fund.

## Substitutes

Substitutes serving in District-funded programs are usually utilized for one of three reasons: (1) illness or leave of absence provisions, (2) in-services, or (3) short-term resource. Each of these categories
 current-year needs defined by each program manager. For categorical programs, all substitute expenses are charged to the applicable program.
Non-School Site Staffing

## School Staffing - Certificated Personnel

The District's staffing for teachers is computed in terms of student enrollment with student/teacher ratios of 19:1 for grades 1-2, 30:1 for grades K and 3-6, 32:1 for grades 7-12, and 20:1 for $9^{\text {th }}$ grade English and math.

## School Staffing - Classified Personnel

The District's clerical staffing for classified personnel assigned to school sites is computed in terms of the instructional levels (elementary, intermediate, and high school) associated to the school site.

Elementary Schools:

- Regular enrollment $x 1.75$ minutes plus Special Education enrollment $\times 2.0$ minutes
- Divide the sum by 60 minutes and round to the nearest half hour Minimum staffing is $11 \frac{1}{2}$ hours ( 8 hours at Silverado Elementary) LMA is included in formula
- Health formula is .00282 x enrollment

Criteria and Standards

2007-08 July 1 Budget (Single Adoption)
General Fund
30666210000000

Provide methodology and assumptions used to estimate ADA, enrollment, revenues, expenditures, reserves and fund balance, and multiyear mmitments (including cost-of-jiving adjustments).
viations from the standards must be explained and may affect the approval of the budget.

\section*{\(\checkmark\) RITERIA AND STANDARDS}
1. CRITERION: Average Daily Attendance

STANDARD: Funded average daily attendance (ADA) has not been overestimated in 1) the first prior year OR in 2) two or more of the previous three years by more than the following percentage levels:
\begin{tabular}{|c|c|c|c|c|}
\hline \multirow[t]{4}{*}{} & Percentage Level & \multicolumn{3}{|c|}{District ADA} \\

.TA ENTRY: Enter an explanation if the standard is not met.
'a. STANDARD NOT MET - Projected P-2 ADA to enrollment ratio is above the standard for one or more of the budget or two subsequent fiscal years, Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5\%

Explanation:
The CBEDS enrolment counts include district sponsored charter schools. The 3 year ADA to enroliment average trend for Orange Unified is a (required if NOT met) \(96.354 \%\) attendance rate.

\section*{4. CRITERION: Revenue Limit}

STANDARD: Projected revenue limit for any of the budget year or two subsequent fiscal years has not changed by more than one percent plus or minus the change in population growth and the funded cost-of-living adjustment (COLA) from the prior year.

For basic aid districts, projected revenue limit has not changed by more than the percent increase in property tax revenues from the prior fiscal year.
For districts funded by necessary small school formulas, projected revenue limit has not changed by more than the prior year amount plus the funded cost-of-living adjustment.

68. Comparison of District Other Revenues and Expenditures to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.
1a. STANDARD NOT MET - One or more projected operating revenue or expenditure object categories have changed by more than the standard in one or more of the budget or two subsequent fiscal years. Provide reasons for the projected change, descriptions of the methods and assumptions used in the projections, and what changes, if any, will be made to bring the projected revenues and expenditures within the standard.

\section*{Explanation:}

FY07 Revenues include deferrred revenues and significant one-time state programs not included in the budget years. FY07 Other local revenues (required if NOT met) include the locally funded charter school In-lieu Property Tax revenue which has been reclassed to a revenue limit transfer in the budget years. FYo7 and FY08 Books/Supplies include balances budgeted for unspent prior year school site/categorical program allocations. FY09 and FY10 assume those funds will be expended.

la. NOT MET - The percent change in annual payments for long-term commitments exceeds the change in revenues for any of the budget or two subsequent fiscal years. Explain how these long-term commitments will be funded in future years. For funding sources that will expire prior to the end of the commitment period, or are funded with one-time sources, provide an explanation for how those funds will be replaced to continue annual debt service commitments.
Explanation:
(required if NOT met)

\section*{¢7. Unfunded Liabilities}

Estimate the unfunded liability for postemployment benefits based on an actuarial study, if required, or other method; and identify the estimated or required annual contribution and how the costs are accounted for (pay-as-you-go, amortized over a specific period, etc.)

Estimate the unfunded liability for any other self-insured benefits programs (e.g. workers' compensation), based on an actuarial study, if required, or other method; and identify the estimated or required annual contribution and how the costs are accounted for (pay-as-you-go, amortized over a specific period, etc.).

\section*{S7A. Identification of the District's Estimated Unfunded Liability for Postemployment Benefits Other than Pensions (OPEB)}

DATA ENTRY: Click the appropriate button in item 1 and enter data in all other applicable items; there are no extractions in this section.
1. Does your district provide postemployment benefits other than pensions (OPEB)? (if No, skip items 2-6)

2. For the district's OPEB:
a. Are they lifetime benefits?

b. Do benefits continue past age 65?

c. Describe any other characteristics of the district's OPEB program including eligibility information:

Post employment benefits from age 55 to 65 are offered to: Cerificated employees after 15 years of service to the district. Management/ Supervisor/Confidential employees after 5 years of service; Classified employees are not eligible for this benefit. Eligibilityfor lifetime benefits were eliminated for employees hired subsequent to June 30, 1992.
3. Are OPEB funded on a pay-as-you-go, actuarial cost, or other method?

4. If Pay-as-you-go, disclose the following information:
\begin{tabular}{|c|c|c|}

1. Does your district provide other self-insured benefits (e.g., workers' compensation)? (If No, skip items 2-6) \(\square\)
2. Describe any other self-insured benefit programs operated by the district. Include details on whether the programs are lifetime or limited, and eligibility information:

Orange Unified School District began its self-insured workers' compensation program on July 1, 1981. From March 1, 1997 through June 30, 2003, the District purchased first dollar insurance. The District resumed its seff insurance program on July 1,2003 . Its current self-insured retention is \(\$ 350,000\) and excess coverage is provided by Gray Insurance for the \(\$ 350,000\) to \(\$ 500,000\) layer with a corridor deductible of \(\$ 225,000\) and Insurance Corp of Hanover provides excess coverage for the \(\$ 500,000\) to \(\$ 25\) million layer.
3. Are other self-insured benefit programs funded on a pay-as-you-go, actuarial cost, or other method?

\section*{S8. Status of Labor Agreements}

Analyze the status of employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting, Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future years.

If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:
The school district must determine the cost of the setlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.

\title{
VI \\ Glossary of Common School Finance Terms
}
GLOSSARY OF COMMON SCHOOL FINANCE TERMS
Categorical Aid - Funds from the State or Federal Government granted to qualifying school agencies for specialized programs regulated and controlled by Federal or State law or regulation. Examples include programs for children with special needs, such as special education and Gifted and Talented Education (GATE); special programs, such as the School Improvement Program (SIP); or special purposes, such as transportation. Expenditure of most categorical aid is restricted to its particular purpose. The funds are granted to districts in addition to their revenue limits.
CBEDS (California Basic Education Data System) - The Statewide system of collecting enrollment, staffing and salary data from all school districts on an "Information Day" each October.
CBEST (The California Basic Education Skills Test) - Required of anyone seeking certification as a teacher. This test measures proficiency in reading, writing, and mathematics.
Certificated Personnel - School employees who hold positions for which a credential is required by the State - teachers, librarians, counselors, and most administrators.
Classified Personnel - School employees who hold positions that do not require a credential, like aides, custodians, clerical support, cafeteria workers, bus drivers, etc.
Class-Size Penalties - The penalties imposed on school districts that have classes in excess of certain maximum sizes. Class-size penalties result in a reduction in ADA which, in turn, results in a loss in revenue limit income (see Education Code Sections 41376 and 41378).

Base Revenue Limit - See Revenue Limit.
Basic Aid - The California Constitution guarantees that each school district will receive a minimum amount of State aid, called "basic aid," equal to \(\$ 120\) per ADA or \(\$ 2,400\) per district, whichever is greater. "Basic aid school districts" are those eligible for the basic aid constitutional guarantee only, since all of the balance of the school districts' revenue limit is funded by local property taxes.

\section*{Benefit Assessment Districts - See Maintenance
Districts. \\ Districts. \\ Benefit Assessment Districts - See Maintenance Assessment}

Bonded Indebtedness - An obligation incurred by the sale of bonds for acquisition of school facilities or other capital expenditures. Since 1986, districts have been able to levy a local property tax to amortize bonded indebtedness, provided the taxes are approved by a two-thirds vote of the electorate. -
the last school month ending on or before December 31 of a school year. The Second Principal Apportionment ADA (called the P-2 ADA) is counted from July 1 through the last school month ending on or before April 15 of a school year. Annual ADA is based on the count from July 1 through June 30. The final recalculation of the apportionment is based on a school agency's P-2 ADA, except for adult education programs, regional occupational centers, and programs and nonpublic school funding, all of which use the annual count of ADA. Also, when a district has a very large influx of migrant students in the spring, a district may request the use of annual ADA in lieu of P-2 ADA.  
GLOSSARY OF COMMION SCHOOL FINANCE TERMS
calculated in June corresponding to the P-2 ADA; and (3) the annual recalculation of the apportionment is made in February following the school year and is based on P-2 ADA (except for programs where the annual count of ADA is used).
Appropriation Bill - A bill before the Legislature authorizing the expenditure of public money and stipulating the amount, manner, and purpose for the expenditure items.
Appropriation For Contingencies - That portion of the current fiscal year's budget that is not appropriated for any specific purpose but is held subject to intra-budget transfer (i.e. transfer to other specific appropriation accounts as needed during the fiscal year).
Assessed Valuation or Assessed Value - The total value of property for taxation purposes within a school agency, as determined by State and county assessors. The "AV" of a school district will influence the
 in Statewide AV from one year to the next is an important ingredient in determining appropriations levels required from the State for fully funding district and county revenue limits, as well as for Proposition 98 calculations. Ever since Proposition 13, the assessed value of properties in California is adjusted to the true market value only at the time of new construction or transfer of ownership. For all
 year, resulting in the assessed value of many properties being far less than their current market value.
Attendance Reports - Each school agency reports its attendance three times during a school year. The First Principal Apportionment ADA, called the P-1 ADA or the P-1 count, is counted from July 1 through

ADA (Average Daily Attendance) - There are several kinds of attendance, and these are counted in different ways. For regular attendance, ADA is equal to the average number of pupils actually attending classes who are enrolled for at least the minimum school day. Up through 1997-98, ADA included excused absences; however, effective 1998-99, excused absences no longer count towards ADA. In classes for adults and ROC/P, one unit of ADA is credited for each 525 classroom hours. Attendance is counted every day of the school year and is reported to the California Department of Education three times a year.
\(A B 1200\) - Reference to AB 1200 (Chapter 1213/1991) that imposed major fiscal accountability controls on school districts and county offices of education by establishing significant administrative hurdles and obligations for agency budgets and fiscal practices (see Education Code Sections 1240 et seq. and 42131 et seq.).

Accrual Basis Accounting - An accounting system where transactions are recorded when they have been reduced to a legal or contractual right or obligation to receive or pay out cash or other resources.

Ad Valorem Taxes - Taxes that are based on the value of property, such as the standard property tax. The only new taxes based on the value of property that are allowed today are those imposed with a two-thirds voter approval for capital facilities bonded indebtedness.

Apportionment - State aid given to a school district or county office of education. Apportionments are calculated three times for each school year: (1) the First Principal Apportionment (P-1) is calculated in February of the school year corresponding to the P-1 ADA (see Attendance Reports); (2) the Second Principal Apportionment (P-2) is Sections 33127 et seq.).
Declining Enroliment Adjustment - A formula that cushions the drop in income in a district with a declining student population. Under current law, districts are funded for the higher of either current year or prior year ADA.
Deficit Factor - When an appropriation to the State School Fund for revenue limits - or for any specific categorical program - is insufficient to pay all claims for State aid, a deficit factor is applied to reduce the allocation of State aid to the amount appropriated.
Economic Impact Aid (EIA) - State categorical aid for districts with concentrations of children who are bilingual, transient, and/or from low-income families.
Encroachment - The expenditure of school districts' general purpose funds in support of a categorical program (i.e. the categorical expense encroaches into the district's general fund for support). Encroachment occurs in most districts and county offices that provide special education and transportation. Other encroachment is caused by deficit factors or local decisions to allocate general purpose funds to special purpose programs.
Encumbrances - Obligations in the form of purchase orders, contracts, salaries, and other commitments chargeable to an appropriation for which a part of the appropriation is reserved. Concurrently Enrolled - Pupils who are enrolled both in a regular
 occupational center or program (ROC/P) or class for adults. Such a student will generate both regular ADA for the time in the regular program plus concurrently enrolled ADA for the time in ROC/P or adult classes. By qualifying for both regular ADA and concurrently enrolled ADA, a student can generate more than one unit of ADA. Consumer Price Index (CPI) - A measure of the cost-of-living for consumers compiled by the United States Bureau of Labor Statistics. Separate indices of inflation are calculated regularly for the United States, California, some regions within California, and selected cities. The CPI is one of several measures of inflation.
Cost-of-Living Adjustment (COLA) - An increase in funding for government programs, including revenue limits or categorical programs. Current law ties the COLA for most education programs to the annual percentage change in the "Implicit Price Deflator" for State and Local Governments - a government price index (see Education Code Section 42238.1).
Credentialed Teacher - One holding a credential to teach issued by the State Commission on Teacher Credentialing. A credential is
 and courses required by the State, graduated from an accredited college or university, met any other State requirements, and passed the California Basic Education Skills Test (CBEST).
Criteria and Standards - Local school agency budgets must meet State-adopted provisions of "criteria and standards." These provisions
establish minimum fiscal standards, such as a minimum reserve level,
the California Constitution. Using 1978-79 as a base year, subsequent years' limits have been adjusted for: (1) an inflation increase equal to the change in the Consumer Price Index or per capita personal income, whichever is smaller; and (2) the change in population, which for school agencies is the change in ADA. Proposition 111, adopted in June 1990, amended the Gann limit inflation factor to be based only on the change in per capita personal income.

General Obligation Bonds - Bonds that are a "general obligation" of the government agency issuing them (i.e. their repayment is not tied to a selected revenue stream). Bond elections in a school district can be approved by a two-thirds vote of the electorate or by a vote of \(55 \%\) of the electorate under Proposition 39. State bond measures require only a majority vote.

Gifted and Talented Education (GATE) - A program for students in grades 1 through 12 who have shown potential abilities of high performance, capability and needing differentiated or accelerated education. "Gifted child educational programs" are those special instructional programs, supportive services, unique educational materials, learning settings, and other services which differentiate, supplement, and support the regular educational program in meeting the needs of gifted students.

High Revenue Districts - Districts that have a revenue limit per ADA that is greater than the State average for the same type of district (elementary, high school, or unified). Many high-revenue districts were formerly called "high wealth" because their assessed value per ADA was significantly above the Statewide average.

Implicit Price Deflator - See Cost-of-Living Adjustment.

Equalization Aid - The extra State aid provided in some years - such limit toward the Statewide average.

ERAF (Education Revenue Augmentation Fund) - The fund used to collect the property taxes that are shifted from cities, the county, and special districts within each county, prior to their distribution to K-14 school agencies.

Fact-finding - The culmination of the Impasse Procedures (Article 9) of the State's collective bargaining law. A tripartite panel, with the chairperson appointed and paid for by PERB, considers several specifically enumerated facts and makes findings of fact and recommendations in terms of settlement to a negotiating agreement. Such recommendations are advisory only and may be adopted or rejected in whole or in part by the parties.

Forest Reserve Funds - 25\% of funds received by a county from the United States Government from rentals of forest reserve lands are apportioned among the various districts in the county according to school population.

Full-Time Equivalent (FTE) - A count of full-time and part-time employees where part-time employees are reported as an appropriate fraction of a full-time position. This fraction is equal to the ratio of time expended in a part-time position to that of a full-time position.

Gann Spending Limit - A ceiling, or limit, on each year's appropriations of tax dollars by the State, cities, counties, school districts, and special districts. Proposition 4, an initiative passed in November 1979, added controls on appropriations in Article XIIIB of

Leveling Up - Raising the revenue level of low-revenue districts to promote revenue equity among school districts.
Mandated Costs - School district expenses that occur because of Federal or State laws, decisions of State or Federal courts, Federal or State administrative regulations. Costs that are mandated by State law or regulations must be reimbursed by the State, while costs mandated by Federal law, a Court or an initiative do not need to be reimbursed by the State (see SB 90, 1977).
Maintenance Assessment Districts - A methodology for local agencies, including school agencies, to charge property owners a fee for the benefit derived by the property as a result of local agency service improvements (see Lighting and Landscape Act of 1972, ןоочэs ‘КІІви!
 governing board only, by merely showing a benefit to each fee payer. Now, however, a school agency must hold an election before such a fee can be levied.
Maintenance Factor - See Proposition 98.
Miscellaneous Funds - Local revenues received from mineral royalties, bonuses, and other payments in lieu of taxes. Fifty percent of such revenues are used as an offset to State aid in the revenue limit formulas.
Necessary Small School - An elementary school with 96 or fewer ADA or high school with 286 or fewer ADA that meets the standards of being "necessary" (see Education Code Sections 42280 et seq.).

Indirect Expense and Overhead - Those elements of indirect cost necessary to the operation of the district or in the performance of a service that are of such nature that the amount applicable to each accounting unit cannot be separately identified. Indirect costs are allocated to all programs in a school agency as a percentage of direct and allocated costs for each program.

Individualized Education Program (IEP) - A written agreement between a school agency and parents or guardians of a disabled child specifying an educational program tailored to the needs of the child, in accordance with Federal PL 94-142 regulations. An IEP team is comprised of a certified district employee who is qualified to supervise special education, the child's teacher, one or both parents, the child, if appropriate, and other individuals at the discretion of the parent or school. The IEP must include a statement of the child's present levels of educational performance, a statement of annual goals and short-term instructional objectives, a statement of the specific special education and related services to be provided to the child, the extent to which the child will participate in regular education programs, the projected dates for starting services, appropriate objective criteria, evaluation procedures, and schedules for determining, on at least an annual basis, whether the short-term instructional objectives are being achieved.

Least Restrictive Environment - Federal and State law requires that disabled students be placed in the least restrictive educational environment appropriate to their needs so that they can, to the extent appropriate, integrate, and be educated with non-disabled students.

Leveling Down - Lowering the revenue level of high-revenue districts to promote revenue equity among school districts.

Proposition 13 - An initiative amendment (passed in June, 1978) adding Article XIII A to the California Constitution. Under Proposition 13, tax rates on secured property are restricted to no more than \(1 \%\) of full cash value. Proposition 13 also defined assessed value and required a two-thirds vote to increase existing taxes or levy new taxes.
Proposition 98 - An initiative adopted in 1988 and then amended by Proposition 111 in 1990. Proposition 98 contains three major
 agencies (unless suspended by the Legislature); (2) a formula for allocating any State tax revenues in excess of the State's Gann Limit; and (3) the requirement that a School Accountability Report Card be prepared for every school. The minimum funding base is set equal to the greater of the amount of State aid determined by two formulas, commonly called ATest \(1 @\) and ATest \(2 @\) - unless an alternative formula, known as "Test 3," applies.
"Test 1 " - originally provided that K-14 school agencies shall receive at least \(40.319 \%\) of State general fund tax revenues in each year, the same percentage as was appropriated for \(\mathrm{K}-14\) school agencies in 1986-87. Due to the shift in property taxes from local governments to K-14 agencies, the "Test 1 " percentage has been reset at \(34.559 \%\).
"Test 2" - provides that K-14 school agencies shall receive at least the same amount of combined State aid and local tax dollars as was received in the prior year, adjusted for the Statewide growth in K-12 ADA and an inflation factor equal to the annual percentage change in per capita personal income.

Reserves - Funds set aside in a budget to provide for estimated future expenditures or to offset future losses, for working capital, or for other purposes.

Revenue Limit - The amount of revenue that a district can collect annually for general purposes from local property taxes and State aid. The revenue limit is composed of a base revenue limit (a basic education amount per unit of ADA computed by formula each year from the previous year's base revenue limit) and any of the number of revenue-limit adjustments that are computed anew each year.

The total revenue limit of a school district is generally determined by multiplying the district's P-2 ADA times the base revenue limit, adding
the applicable revenue limit adjustments and applying a deficit factor.
Revolving Cash Funds - A stated amount of money used primarily for emergency or small or sundry disbursements and reimbursed periodically through properly documented expenditures, which are summarized and charged to proper account classifications.

ROC/P (Regional Occupational Center or Program) - a vocational educational program for high school students and adults. A ROC/P may be operated by a single district, by a consortium of districts under a joint powers agreement (JPA), or by a county office of education for the districts within the county.

SB 90 - Reference to Senate Bill 90 (Chapter 1406/1972) that established the revenue limit system for funding school districts. The first revenue limit amount was determined by dividing the district's 1972-73 State and local income by that year's ADA. This per-ADA

amount is the historical base for all subsequent revenue limit
calculations.
SB 813 - Reference to Senate Bill 813 (Chapter 498/1983) that \begin{tabular}{l} 
appealed to the Appellate Court which upheld the Superior Court \\
ruling. In March 1989, all of the plaintiffs in the case agreed to \\
dismiss their appeals, thereby settling Serrano as a legal issue.

\section*{GLOSSARY OF COMMON SCHOOL FINANCE TERMS}
Title II - Federal financial assistance for schools under the Education Consolidation and Improvement Act, 20 U.S.C. Sec. 3811 et seq., which consolidated the provisions of Titles II, III, IV, VI, VII, and part IX of the Elementary and Secondary Education Act of 1965. The law provides Federal grants to develop and implement a comprehensive and coordinated program to improve elementary and secondary instruction in basic skills of reading, math and language arts, as formerly authorized in Title II.
Unencumbered Balance - That portion of an appropriation or allotment not yet expended or obligated.
Unsecured Roll - That portion of assessed property that is movable (such as boats, planes, etc.).
Waivers - Permission from the State Board of Education or, in some cases, from the Superintendent of Public Instruction, to set aside the requirements of an Education Code provision upon the request of a
 (see Education Code Section 33050).

Subventions - The term used to describe assistance or financial support, usually from higher governmental units to local governments
or school agencies. State aid to school agencies is a State subvention.
Sunset - The termination of a categorical program. A schedule is in current law for the Legislature to consider the "sunset" of most State categorical programs. If a program sunsets under this schedule, the funding for the program shall continue but the specific laws and regulations shall no longer apply.

Supplemental Roll - An additional property tax assessment for properties that are sold or newly constructed that reflect a higher market value than on their prior lien date. By taxing this increase in assessed value immediately - rather than waiting until the next lien date - additional property taxes are generated.

\section*{Test 1/Test 2/Test 3 - See Proposition 98.}

Unduplicated Count - The number of pupils receiving special education or special services under the Master Plan for Special Education on the census dates of December 1 and April I. Even though a pupil may receive multiple services, each pupil is counted only once in the unduplicated count.

Title I - Federal financial assistance to districts to meet the special needs of educationally deprived children (i.e. children whose educational attainment is below the level appropriate for children of their age). Funding is to supplement services in reading, language arts, and mathematics to identified students.
